TP-LINK Debuts AC600 Wireless Dual Band USB Adapter

AC600 Wireless Dual Band USB Adapter gives users the ability to upgrade their PCs and laptops to the next generation of Wi-Fi, 802.11ac

(Las Vegas, Nevada) – January 8, 2013 -TP-LINK, a global provider of networking products, today announced its new AC600 Wireless Dual Band USB Adapter, the TL-WDN5200. Using the latest in Wi-Fi technology, the TL-WDN5200 will allow users to take full advantage of the 802.11ac standard on their PCs and laptops with up to 433Mbps over the 5GHz band and 150Mbps over the 2.4GHz band.

More than simply providing compatibility with the latest in wireless technology, with 802.11ac speed and range, users will be able to experience never-before-possible wireless capabilities when using their upgraded PCs or laptops. Using dual band wireless technology users have the ability to access crystal clear 5GHz connections or legacy 2.4GHz connections. With wireless connections transmitting over the 5GHz band, users needn't worry about interference from neighboring wireless devices and the plethora of household appliances that may interfere with their wireless signal, ensuring high-quality connections ideal for bandwidth-intensive applications such as HD video streaming and online gaming.

TP-LINK's AC600 Wireless Dual Band USB Adapter will be shown at CES from January 8-11, 2013 Las Vegas Convention Center South Hall 4-Upper Level, Booth 36212

Estimated Product Availability: Q2 2013
