Skype™ gives you some face time with your family and friends no matter where they are in the world. All your contacts are displayed right on the home page. Video chat, make phone calls and more all right from the comfort of your living room.

YouTube is now right in your living room. All the latest viral videos are at your finger tips and on your HDTV. With millions of great HD content, sit back and enjoy uploaded videos from around the world.

Web Browsing is simple, easy and can now be done right on your television. Search, surf, email and more using this fully functional internet APP. No matter the www, you'll have no trouble accessing using the wireless remote control.

Photos from your personal collection can now be displayed in stunning definition. Upload, archive and view all your special moments in seconds.

Camera, fully integrated and featuring 3 mega pixels of clarity, lets you capture moments and share pictures with family and friends.

News and Weather are just one press of a button away. Know it all from the latest headlines, horoscopes, 5-day forecasts and more. There's never been an easier way to get the who, what, when, where, why and how.
